eviCore Prior Authorization Program

Scott and White Health Plan (SWHP) has an ongoing commitment to provide our members with access to high-quality, cost-effective healthcare. As part of that commitment, we have chosen eviCore healthcare to provide benefits management services for certain covered services that require prior approval (also known as prior authorization).

SWHP members will require prior authorization by eviCore for the following covered services (except in an emergency). This applies to services provided on or after the dates shown for each category below.

- **Advanced Imaging (PET/MRI/CT) and Nuclear Medicine** (August 2018)
- **Cardiology Imaging and Certain Procedures** (September 2018)
- **Joint, Spine, and Pain Management Procedures** (October 2018)

Your doctor should secure any authorizations needed. When your service is scheduled, your doctor will share the prior authorization details with the facility providing your service. In-network providers were notified about eviCore services in June of this year.

Your procedure or service will be covered under the terms of your medical plan. If you have any questions, please call the number on the back of your ID card.

Thank you,
Scott and White Health Plan
