Continuity of Care/Transition of Care

SEQA/EQA Member,

As a reminder, the 2019 SEQA and EQA plans do not cover services offered by Tier 2 providers. These providers are considered out of network. Out-of-network coverage is only available in cases of urgent/emergency care or rare situations when an in-network provider is not available and authorization is provided.

SEQA/EQA members who are currently receiving treatment from a Tier 2 provider for a specific acute medical or behavioral condition may be eligible to continue care for a limited period of time at the Tier 1 BSWQA coverage levels. A list of eligible conditions is included in the form below and subject to formal approval.

If you believe you have an eligible condition and would like to participate in the Continuity of Care/Transition of Care program, complete and submit one of the forms below **no later than Jan. 31, 2019**.

- Continuity of Care/Transition of Care [Form](#) (English)
- Continuity of Care/Transition of Care [Form](#) (Spanish)

Thank you,

Scott and White Health Plan
